

COME AND HELP SHAPE EMERGING PLANS AT OSNEY MEAD

Oxford University Development (OUD) is proposing a new home for Engineering Science at Osney Mead and held Stage 1 consultation in March.

At Stage 2 consultation, we will share a summary of themes heard so far and present more information about the proposals. This is an important opportunity to voice your thoughts and ideas about development at Osney Mead before a planning application is prepared.

PLEASE JOIN US AT OUR DROP-IN EXHIBITIONS:

FRIDAY, 10 JULY

11:00 – 14:00

**THE KING'S CENTRE
OSNEY MEAD
OXFORD, OX2 0ES**

SATURDAY, 11 JULY

10:00 – 12:00

**WEST OXFORD COMMUNITY CENTRE
BOTLEY ROAD
OXFORD, OX2 0BT**

Osney Mead area

Proposed application site

COME AND DISCUSS THE ENGINEERING SCIENCE PROPOSALS

The planning application will be for a new Engineering Science department, which if developed, could contribute significantly to the city and the country. It will include facilities for research, experimentation, testing and learning.

The OUD team have also been evolving a set of guiding principles to inform this first phase of development, and the others that could follow in later phases.
